

6A.

Common Mistakes and Misunderstanding

- Not a self directed team, managers or Scrum master direct or organize the team.
- No daily update of Sprint Backlog by members or daily tracker.
- New work added to iteration or individual
- product owner isn't involved or doesn't decide
- No Sprint Review
- Many matters
- Documentation is bad
- Design or diagramming is bad
- Scrum meeting too long or unfocused
- predictive planning, PERT chart planning
- Full team not briefed in Scrum and its values.
